

Mauro Dell'Amico

University of Modena and Reggio Emilia
via Amendola, 2, 42122, Reggio Emilia, Italy
email: mauro.dellamico[at]unimore.it

Career summary

Mauro Dell'Amico has almost a three decades academic experience in combinatorial optimization and operations research, primarily applied to mobility, logistics, transportation, supply chain management, production scheduling and planning, network planning. Mauro has participated as principal investigator in many EU and Italian funded research projects in optimization, logistics, transportation, ICT, and scheduling. He is member of the scientific board of several international conferences and journals. From 2008 to 2014 he was the director of the Interuniversity Consortium for Optimization and Operations Research, from 2015 he is the President of the consortium. Director of the Department of Sciences and Methods for Engineering at UniMoRe from 2009 to 2012. Mauro complements the academic activities with consultancy on optimization for private and public companies.

Employment

Dates	2000-current
Name of employer	University of Modena and Reggio Emilia (UniMORE)
Type of business or sector	High Education
Occupation or position	Full professor
Main activities and responsibilities	Mauro Dell'Amico specializes in combinatorial optimization and its applications. In particular his theoretical interests are in graph theory, mathematical programming, heuristics with applications to transport, logistics, supply-chain, etc. He has been principal investigator for Unimore in several European projects (6 projects in H2020, 11 projects in FP/7, 1 project in FP6) and in national funded research projects. He published over 60 papers, 2 international books and 4 didactic books. He is president of the Italian Consortium for Optimization and Operations Research. Principal Investigator of UniMORE and ICOOR in EU projects H2020: (EL-VITEN, SUCCESS, AEOLIX, NEMO, OPTITRUCK, Plan4Res), FP/7 (SAFERIDER, ASSET, 2BESAFE, SAFEWAY2SCHOOL, ISI-PADAS, TELEFOT, SAVEME, CITYLOG, SmartCEM, ID4EV, CO-GISTICS), FP/6 (AC/DC). Principal Investigator for UniMORE in National projects SORSA, STIL, ASINFO, and others. Coordinating the research group including several PhD students and fellows. Writing papers and articles for a wide range of publications. Teaching Operations research and its Applications at UniMoRe (Department of Sciences and Methods for Engineering, Department of Physics, Information Science and Mathematics, and Department of Engineering "Enzo Ferrari").
Dates	1995-2000
Name of employer	University of Modena and Reggio Emilia (UniMORE)
Type of business or sector	High Education
Occupation or position	Assistant Professor
Dates	1990-1995
Name of employer	Polytechnic of Milan
Type of business or sector	High Education
Occupation or position	Assistant Professor

Education

Dates	1990
Title of qualification awarded	PhD in System Engineer
Name and type of organization	University of Bologna, Italy
Dates	1985
Title of qualification awarded	Master degree in Electronic Engineer, 110/110 cum laude
Name and type of organization	University of Bologna, Italy

Selected publications

International journals
